Job offers in Switzerland

Dear Mrs. Shchigurova,
Dear Mr. Shchigurov,

We are extremely sad and concerned to observe the recent developments in your country. We sincerely hope for a prompt ending of the aggression against your country and your people. We hope the best for you, your colleagues, and families.

In the recent days we have been contacted by various member firms of our association of consulting engineering firms. They share our concerns and offer their full support to your member firms and their employees. Various engineering firms are dedicated to offer short- or medium-term employment, internships, or similar occupation for staff of your member firms or in general for Ukrainian citizens willing to temporary leave the country.

I would be happy to serve as an intermediary to refer such interested people to Swiss engineering firms. Feel free to contact me by e-mail (mario.marti@usic.ch) with any information or contact of potential candidates.

Again: All the best to you and your country!

Sincerely,

USIC Swiss Association of Consulting Engineers

Dr. iur. Mario M. Marti, Attorney at Law, MJur
Director usic
